### **PERSONAL INTERESTS**

Growing up in a military family I have had the wonderful opportunities to travel the United States, as well the world, learning new cultures through first hand experiences. In my free time, I enjoy writing and painting. I am also an avid comic book collector and cosplay enthusiast at conventions. I am part of non profit costuming group which visits child wards at our local hospitals and special events throughout the community. I can usually be found outdoors hiking or in front of an easel painting when time permits. My family is diverse, fun and the most important aspect of my life.
