ULTRATAPE ANNOUNCES CLEANROOM LABELS FOR CRYOGENIC LABORATORY APPLICATIONS

SALEM, OREGON June 13, 2012 UltraTape Industries, a division of Delphon, and the premier supplier of Cleanroom tapes and labels announces its UltraClean Cryogenic Labels, designed specifically for use in controlled environment laboratories. The UltraClean Cryogenic Labels have been tested to -196°C (-320°F) and approved for use on glass slides and plastic vials in liquid nitrogen.

The Labels are utilized in markets such as DNA, Forensics, Drug Development, and Medical Testing. The UltraClean Cryogenic Labels are comprised of woven nylon, polyester or polypropylene materials with a permanent pressure sensitive acrylic adhesive. These materials are an ideal choice to adhere to vials, test tubes and other curved surfaces due to their flexibility. The Cryogenic Label product line has excellent chemical durability when exposed to harsh chemicals such as sulfuric acid solution, sodium hydroxide solution, and mineral spirits. The labels are designed for use with
