DELPHON INDUSTRIES ACQUIRES CLEANROOM TAPE MANUFACTURER

HAYWARD, CA, JUNE 26, 2007: Today, Delphon Industries announced its acquisition of UltraTape Industries of Salem, Oregon.

UltraTape is a manufacturer of adhesive tapes used in cleanroom environments. The acquisition supports Delphon's mission to merge innovative technologies in order to provide unique materials and services to the high technology market.

"UltraTape is known as an innovator in the area of adhesive tapes used in advanced technology industries and is a perfect complement to the suite of products and services Delphon's portfolio companies provide to these same markets. The purchase of UltraTape is part of our strategy to support our semiconductor, electronics, and medical customers with high

quality products and to achieve strong corporate growth", said Jeanne Beacham, President of Delphon Industries.

UltraTape, founded in 1992, manufactures custom cleanroom and construction process tapes in addition to antistatic and medical/pharmaceutical tapes for use in critical environments.

About Delphon:

Delphon Industries, LLC was started in 2004 in order to provide a platform for merging innovative technologies. The company specializes in bringing together unique high technology products and services in order to meet the specific needs of its customers. Under its corporate umbrella, the company operates Gel-Pak of Hayward, CA, Quik-Pak of San Diego, CA and TouchMark of Hayward, CA. For more information, visit www.delphon.com.

Gel-Pak device carriers are used in a wide variety of industries that require the proprietary Gel solution for the safe shipping and handling of leading edge technologies. When companies around the world need to transport valuable devices without risk of damage, they rely on products made by Gel-Pak. For more information, visit www.gelpak.com

Quik-Pak uses its patented Open-Cavity Package technology and complementary assembly services to produce IC prototypes for

semiconductor and MEMS manufacturers, and Fabless IC design firms. Quik-Pak can process any plastic package at any time. For more information, visit www.icproto.com.

TouchMark provides high quality pad printing services to the medical device manufacturing and consumer electronic markets. For more information, visit www.padprint.com.
