FOR IMMEDIATE RELEASE  
9 A.M. EDT, July 29, 2015

### **ULTRATAPE PARTNERS WITH WORLDWIDE MATERIALS AND CHEMICAL MANUFACTURER TO CREATE CLEANROOM BOOKLET LABEL TO MEET GHS STANDARDS**

Wilsonville, OR, July 29, 2015 - UltraTape Industries, a division of Delphon and leading manufacturer of cleanroom tape and label products has recently developed a booklet label, for a worldwide materials and chemical manufacturer, that meets GHS (Globally Harmonized System) standards.

OSHA recently adopted a Globally Harmonized System of standards (GHS) that require chemical manufacturers and repackagers to carry specific information on their products such as safety, first aid, precautionary statements, environmental hazards, storage and disposal application instructions. UltraTape recently partnered with a large manufacturer to create a customized cleanroom booklet label that satisfied these standards. The label consisted of a multi-panel foldout leaflet

laminated to a custom die cut pressure sensitive adhesive. The resealable label was cleanroom certified to be particle-free and residue free for use in critical environments.

"Our customer was under pressure to have this label ready to ship with product by the June 1, 2015 GHS compliance deadline," said Lance Ochs UltraTape sales manager." "We worked hard and made sure we were able to customize this label to meet their specs and at the same time have it ready for the June 1 deadline."

### **About UltraTape**

Located in Wilsonville, Oregon, UltraTape, a division of Delphon, has manufactured high quality cleanroom tapes, labels and adhesive materials for critical environments for over 20 years. The company maintains a cleanroom manufacturing facility to assure particle-free and residue-free products that meet even the most stringent standards. UltraTape specializes in material development in order to customize products to meet customer specifications.
