## Maximize your heating efficiencies to earn maximum rebates

Making sure your heating equipment is in peak working order can ensure maximum efficiency of your heating system. It can also save your business money by reducing energy bills while providing comfort to your customers and employees. And, you can feel warm all over knowing that it also ensures public safety and operational reliability.

### Heating upgrades equal cold hard cash

Upgrading your gas-fired boiler or furnace and adding auxiliary equipment can increase your bottom line. A variety of rebates are available to help upgrade your business' natural gas heating system when installing qualifying new high-efficiency equipment.

### Already made efficiency upgrades?

If you've already made heating efficiency improvements this year, such as getting a boiler tune-up, have you gotten all the rebates you're entitled to? Rebates are available for many heating efficiency upgrades and improvements, including:

- Insulating pipes
- Repairing or replacing steam traps
- Add-ons such as modulating burners, controls and stack dampers

Don't get left in the cold—apply for your heating efficiency rebates today!

### How to take advantage of the heating efficiency rebate program:

It's easy! Simply call your Xcel Energy account manager or the Business Solutions Center at [1-855-839-8862](tel:1-855-839-8862). You may also visit [xcelenergy.com/HeatingEfficiency](http://xcelenergy.com/HeatingEfficiency) for more information or email [energyefficiency@xcelenergy.com](mailto:energyefficiency@xcelenergy.com) to get started.
