

Get More Out of 6pm

By Jessica Buck

6pm is one of the newest online shopping websites that offers a wide variety of clearance items daily. There are discounts for up to 80% off MSRP on an array of brands such as Nike, Nine West, Clarks Shoes and more with FREE SHIPPING ON EVERYTHING (literally every item, no shipping costs). The various perks to being a part of this online community bring virtually no downside to spending your hard earned money.

There is always strategy when online shopping, so, listed below are several benefits to ponder on before beginning the best shopping spree of your life.

### **Sign up for Daily Deals**

Subscribing to the 6pm newsletter puts you at first priority with the endless list of deals offered site-wide. Exclusivity occurs, making you the very first to know about the latest brands to take advantage of as well as sale items listed with the extra discount added.

Also, to give your mind and bank account more security, 6pm guarantees that it will never share or sell your information. Ever.

### **6pm Coupons**

As if there is a need to receive an additional discount on top of up to 80% off MSRP, 6pm sends out coupons via email as a part of your subscription to the newsletter, but also, you can check out its social media pages ([Facebook](#), [Instagram](#), [Twitter](#) and [Pinterest](#)) for added deals to be used at checkout

### **Stylist Picks & Trends**

Let someone else do the shopping for you with this nifty option to explore styles and trends picked out by a 6pm professional stylist. There are six categories to choose from, from cozy to formal wear, solid colors to wild prints, all chosen by this amazing talented, not to mention fabulously dressed stylist names Jay. Within seconds of searching through the “Spot On” collection, I had a printed jumpsuit, snakeskin clutch and leopard flats in my shopping cart.

### **6pm Associates Program**

Last but not least, and probably the greatest perk of 6pm is its Associates Program. In this program operated by Zappos IP, Inc, 6pm allows associates to promote their goodies via text links, banner ads and an array of other unique methods to bring in new customers. It is free to sign up and each time you bring a sale to 6pm, you earn money in your pocket (for more shopping obviously).

All in all, I encourage you all to take advantage of the many incentives that are featured with 6pm. Between the amazing discounts and the opportunity to earn money just by promoting the things you love from the company already, the disadvantages to this online shopping community is slim to none. Happy spending!
