## **PhoneInc Customers Have Complaints About The New Personalized Phone**

*Released Valentines Day the new cutting edge technology still has bugs*

WASHINGTON (March 1, 2012) – A small number of PhoneInc customers have been sending in complaints of having mild symptoms of headaches and dizziness. This new personalized technology of having the phone synced to the owner’s sight and mind still has its problems to be worked out.

“I thoroughly enjoy my phone, until after a couple days I realized my body was feeling off. Once this problem is fixed, this will be a great phone,” said Scott Ward, a loyal PhoneInc consumer.

PhoneInc takes their customer complaints seriously, and have immediately taken action to resolve the problem. Over, billions of phones have been sold and only a small percentage of customers have said to have had these ailments.

Consumers who are owners of this product listed above should be cautious when using it, and should take all necessary procedure if symptoms do occur. Consumers will receive a full refund, product replacement, coupon or product credit, if obtained a malfunctioning phone.

Consumers can call PhoneInc consumer hotline at **1-866-872-8860** weekdays between 8am and 8pm eastern standard time, and weekends between 8am and 5pm eastern standard time to obtain additional details on the recall and the product return process.
