

Deb, it's time to elevate  
your parcel solution.

**IF MANAGING PACKAGE DELIVERY COULD ONLY BE THIS EASY**

Drone delivery is the wave of the future, but may never be appropriate for a university.

However, there is a secure, convenient and efficient solution that is revolutionizing—as well as simplifying—parcel management. Introducing PackCity Intelligent Parcel Lockers, the future of package delivery.

Packcity Parcel Lockers have helped colleges and universities of all sizes improve their student experience and streamline their mailing operations by:

- Offering 24/7 secure access to packages
- Providing 100% chain of custody to reduce lost or misdirected parcels
- Leveraging insights and analytics with robust reporting

We would appreciate an opportunity to “drop in” with your drone remote and show how our solution could benefit Loyola University Chicago.

Your Neopost USA Higher Education Rep will be contacting you soon.

**DID YOU KNOW?**

The average inbound student parcel volume at university mail centers has doubled in the last decade and continues to grow at 13% annually causing further strain to your mail center.

Send. Receive. Connect.
