At BioidenticaRX we choose GloMinerals not only for their rich hues and crease-free coverage, although these are undoubtedly a plus. Rather, it is due to its rich mineral base, jammed packed with antioxidants, that offer so much more than what one would expect from their make-up. Blended with quality sourced vitamins, extracts and minerals, we offer GloMinerals to our clients to provide a form of coverage that will allow people to look great now, and in the future!

As a pharmacy, we take pride in our expert medical professionals discernment. Constantly researching and testing products for their safety, protectiveness, quality standards and lasting benefits, the BioidenticaRX team puts their customers first when considering all product approvals. With all of GloMineral's ingredients clinically proven to be effective, BioidenticaRX can have full confidence we are providing products that meet our clientele's expectations.
