[BioidenticaRX](#) proudly offers a broad spectrum of [Metagenics products](#) - ranging from the [Wellness Essential Pregnancy Packet](#) to their [Benesom formula](#), a product compounded to encourage a restful nights sleep. We offer Metagenetics to help intelligently promote the health and wellbeing of both men and women of all ages. Whether seeking a supplement for memory and mental clarity or a product for [bone support](#), Metagenics's trusted formulas are designed to reach a wide demographic.

Why does BioidenticaRX choose Metagenics? Like BioidenticaRX, their company's philosophy is also heavily steeped in sound science and salient research in the effort to more effectively contribute to happier people, and as a result, happier lives. Their research primarily focuses on nutrigenomics – how one's genetic makeup affects an individual's health. More specifically, nutrigenomics is based on using the optimal nutrients to achieve optimal health. Metagenics's research strives to represent how the appropriate nutritional choices can have significantly advantageous effects on one's genetic makeup. Essentially, “lifestyle medicine” - the smart lifestyle choices a patient can personally make every day – has come to be acknowledged as the true antidote for overall health.

Metagenics infuses the concept of eating right and exercising more into their company's philosophy, encouraging their customers to allow their products to simply enhance one's nutrition, yet not rely on such compounded medicine alone. Our health is our responsibility and human right. Unlike other things we commodified in our culture, we can not outsource our health to a doctor in India to diagnose, heal and return when all set and done. Therefore, it is imperative to maintain our health sovereignty by making smart lifestyle choices.

The addition of Metagenics, as well as the support and guidance of a wellness professional at BioidenticaRX's [Folsom Pharmacy](#), can help you meet your health goals. Set up [a wellness consultation](#) to personalize your healthcare to provide yourself with the nutritional support and

counseling your body deserves for a healthy, energetic life. BioidenticaRX cares about the wellbeing of our patients, therefore, we offer [Metagenetics](#)- a supplement company our patients can trust.
